

CPE 1 [2023-24]
ANSWERSHEET

Max. Marks- 20
Time:50 minutes

Q.No.	Answers	Mark
	SECTION A	
1	a	1
2	b	1
3	d	1
4	d	1
5	a	1
6	Unicellular	1
7	Flora	1
8	1665	1
9	Biodiversity	1
10	Ribosomes	1
11	Gir National Park	1
12	Nucleus	1
13	Dodo ,dinosaur	1
14	Cell wall	1
15	Transition zone	
	SECTION B	
16	Nucleus is known as the brain of the cell because it controls and regulates the functioning of all the life processes.	2
17	Conservation is the preservation and careful management of plant and animal species, their habitats and the ecosystems to prevent the population of the plants and animals from decreasing.	2
18	a) Centrosome is an organelle found in the animal cells. It plays an important role in cell division.	3

	<p>b) Golgi Body is an organelle found in both plant and animal cell. It helps in the modification and packaging of proteins and other molecules.</p>	
--	--------------------------------------------------------------------------------------------------------------------------------------------------------------	--

c) Lysosomes are found in animal cells. Its function is to digest old, worn- out organelles of the cell.
