B. Answer the following

11. What is pin code?

Pin code is the number on the last line of a postal address shows to which part of the country the letter must be sent

12. What is a map?

A map is a drawing that shows where places or things are

13. What are direction words? Why do we use them?

Left, right, straight, ahead, behind are some of the directional words, we use them to guide a person to a particular place.

14. How can we use the sun to find the four main directions?

If we face the rising sun in the morning, our right hand will point to the south and our left hand to the north. In front of us lies the east and behind us is the west.

15. How does a compass help a traveller in the desert or a ship's captain to find their way?

A compass has a needle which always points towards the north. So with the help of a compass a traveller in the desert or sea finds the other main directions.
