

## **Question Bank**

### **Grade 5- Science**

#### **Chapter 2- Soil Erosion and Conservation**

##### **Questions:**

1. Give the constituents of soil.
2. How is soil useful for living being?
3. How is soil formed?
4. What do you understand by weathering of rocks?
5. What is topsoil? How is humus formed?
6. What is soil erosion?
7. How does water flow cause soil erosion?
8. How does soil erosion by water cause flood?
9. List few agents that cause soil erosion.
10. How does wind cause soil erosion?
11. Why wind erosion is the most powerful agent of erosion in desert?
12. How do human activities contribute to soil erosion?
13. Define deforestation?
14. How does deforestation result in soil erosion?
15. Explain overgrazing.
16. Shayama insists that her son Babloo not take the cattle for grazing to the same pastures again and again. Why do you think she does so?
17. What is soil conservation?
18. Define terrace farming? How does terrace farming help in conserving soil?
19. How does afforestation help in preventing soil erosion.
20. Define cover crop with example? What is its role in soil erosion?
21. How does embankment prevent soil erosion?
