- 22. The government alone can make the green economy successful in such a large and diverse country like ours – **FALSE**

ANSWER THE FOLLOWING QUESTIONS:

23. Define Sustainable Development?

Sustainable Development Sustainable means what is good for the economy as well as the future of the environment. For example, natural farming without using chemical fertilisers which permanently harm the soil.

24. Write a short note on Fisheries?

Overfishing has led to the depletion of future fish supplies. • Some species of sharks,

turtles and fish are becoming extinct. This will disturb the ecological balance and food chains in our ecosystem. • This will also cause more dependence on other forms of food causing more pressure on agriculture sectors. • Fishermen may lose their livelihood.

25. What is SBA/SBM?

Swachh Bharat Abhiyan (SBA) or Swachh Bharat Mission (SBM) or Clean India Mission

This mission aims to clean up Indian cities, towns, and villages. One of its main aims is to achieve an Open-Defecation Free India by October 2, 2019, the 150th anniversary of the birth of Mahatma Gandhi, by constructing toilets across the country.

26. Who is a stakeholder?

Any person with an interest or concern in something (business, policy, activity) is known as a stakeholder.

27. What is NGT?

Setting Up the National Green Tribunal (NGT)

The National Green Tribunal is like a court for cases related to environmental protection, conservation of forests and other natural resources.
