	Section B (Subjective type questions)
18	Why is family important for everyone? Ans: Family is important because it provides home, love, support and teaches values to each of its members. Family members learn from one another, help one another and share life's joys and sorrows.
19.	How do volunteers spend time in orphanages? Ans: Volunteers play with the children, or read to them, or bring them games and toys to play with.
20.	How does the government help homeless people? Ans: The government builds shelters for homeless people where they can stay at night free of charge. They also try to build small flats for the homeless families so that children can stay safe at home while their parents go to work.
21.	Why do you think people move from one place to another? Ans: People move from place to place for various reasons. People move in search of work or better jobs, for better future of their children, for seeking medical help or due to a transferable job, in pursuit of higher studies or when they marry.
22.	Why is family important for everyone? Ans: Family is important because it provides home, love, support and teaches values to each of its members. Family members learn from one another, help one another and share life's joys and sorrows.
23.	How do children who do not have family get one? How does it help them? Ans: Children who do not have a family can be adopted by families. The adoptive parents treat the children as their own. At the same time, the children will get love, care and protection.
