

Theory of Consumer Behaviour

Name Date:

1. What is demand?

2. What are the factors that affect demand?

3. What is law of demand?

4. What are normal goods give eg?

5. What are inferior goods give eg?

6. What are substitute goods give eg?

7. What are complementary goods give eg?

8. What is a demand function explain.

9. The British policies aimed at transforming India into-----

and -----

10. Write two reasons that led to the destruction of handicraft industries in India.

11. What was the state of foreign trade during the British rule?

12. What is Bank rate?

13. What is Cash Reserve Ratio?

14. What is demand deposits by Banks?

15. State two monetary measures of credit control by Central Bank

16. What is meant by the term money supply?

17. What is credit multiplier?

because of the reason that the speed of light rays reduces while passing from air to glass or water.

4) **Refraction from denser to rarer medium-**

When light rays pass from denser to rarer medium, the light rays bend away from the normal. Due to this the angle of becomes more than the angle of

e.g. In case when light rays pass from water to air or glass to air, light rays bend away from the normal. The speed of light rays becomes greater while passing from glass or water to air.

Refraction -WS1

Name:

Date:

- 1) is the bending of light as it passes from one transparent substance into another.
- 2) State an example of refraction of light.

.....

- 3) **Refraction from rarer to denser medium** – When light rays pass through rarer to a denser medium, the light rays bend towards the normal. Due to this the angle of is smaller than the angle of.....
In the case when light rays pass from air to water or from air to glass, it bends It is
