

## Grade 5 EVS

### Conservation of Environment

#### Fill in the Blanks

1. The environment includes all \_\_\_\_\_ and \_\_\_\_\_ things.
2. Human activities have had a significant impact on the environment, causing various forms of \_\_\_\_\_ and \_\_\_\_\_.
3. Our modern lifestyle has led to a huge reduction in the amount of \_\_\_\_\_.
4. Pollution, deforestation, and large amounts of waste generation are serious \_\_\_\_\_ to the environment.
5. To ensure our survival, we need to \_\_\_\_\_ the environment.
6. \_\_\_\_\_ waste management involves the proper collection, transport, and disposal of waste.
7. Improper disposal of waste can lead to \_\_\_\_\_ of soil and water sources.
8. Recycling helps reduce the amount of \_\_\_\_\_ in landfills.
9. Composting organic waste can \_\_\_\_\_ soil quality.
10. One way to manage waste effectively is to \_\_\_\_\_, reuse, and recycle materials.

#### True or False

11. The environment only includes living things. (True/False)
12. Human activities have no impact on the environment. (True/False)
13. Pollution is a serious threat to the environment. (True/False)
14. Deforestation refers to the planting of more trees. (True/False)
15. Proper waste disposal helps in conserving the environment. (True/False)

#### Multiple Choice

16. The environment includes:
  - a) Only living things
  - b) Only nonliving things
  - c) Both living and nonliving things
  - d) None of the above
17. Which of the following is NOT a threat to the environment?
  - a) Pollution
  - b) Conservation
  - c) Deforestation

d) Waste generation

18. Human activities have led to:

- a) An increase in natural resources
- b) A reduction in resources
- c) No change in resources
- d) An increase in biodiversity

19. To live a healthy life, we need to:

- a) Ignore the environment
- b) Conserve the environment
- c) Increase pollution
- d) Generate more waste

20. Improper disposal of waste leads to:

- a) Pollution
- b) Conservation
- c) Cleaner surroundings
- d) None of the above

### **Match the Following**

Deforestation - a) Planting trees

Pollution - b) Reduction in air quality

Waste generation - c) Serious threat to environment

Conservation - d) Protecting the environment

Natural resources - e) Used up by human activities

### **Short Answers**

21. What are the two main categories included in the environment?
22. Name two serious threats to the environment caused by human activities.
23. Why is it important to conserve the environment?
24. How does improper disposal of waste affect the environment?
25. Give one example of a human activity that can cause deforestation.
26. What are three practices that can help manage waste effectively?
27. Why is recycling important for the environment?
28. How does composting benefit soil quality?
29. What are some negative effects of improper waste disposal on the environment?
30. Explain one way individuals can contribute to effective waste management.
