

**THE VILLAGE**  
INTERNATIONAL SCHOOL  
"We Nurture Dreams"

**SUBJECT-  
EVS**

**Lesson – 5**

**Interdependence In Nature**

**Give answers**

- a) The gas green plants use for photosynthesis is
- b) Primary consumers are
- c) All food chains begin  
with
- d) The ultimate source of energy on the earth is
- e) Nutrients are returned into the soil by

**1. Give two examples of each:-**

- a. Herbivores
- b. Carnivores
- c. Omnivores

d. Scavengers

e. Decomposers

**2. Write True or False:-**

a. Animals help in seed dispersal.

b. Plants use oxygen for photosynthesis.

c. Green plants are called consumers.

d. A balance is essential between plants and animals.

e. Carnivores are secondary consumers.

**3. Answer the following questions:-**

a. Distinguish between producers and consumers.

b. What is a food chain? Give an example.

c. What will happen if all carnivores are removed from the food chain?

d. List the causes of imbalance in nature.

e. How are plants and animals interdependent.
