SOCIAL SCIENCE
CHAPTER 2. OCEANS AND CONTINENTS**

1. Which is the largest continent by land area?
 - a) Africa
 - b) Asia
 - c) North America
 - d) Europe
2. What percentage of the Earth's surface is covered by water?
 - a) 50%
 - b) 60%
 - c) 70%
 - d) 80%
3. Which is the smallest ocean by surface area?
 - a) Atlantic Ocean
 - b) Indian Ocean
 - c) Arctic Ocean
 - d) Pacific Ocean
4. What is an island?
 - a) A large landmass surrounded by water
 - b) A small body of water surrounded by land
 - c) A landform completely surrounded by water
 - d) A part of a continent
5. Which ocean is known to have the most frequent and severe hurricanes?
 - a) Atlantic Ocean
 - b) Indian Ocean
 - c) Pacific Ocean
 - d) Southern Ocean

Fill in the Blanks

1. The seven large landmasses on Earth are called _____.
2. _____ is the smallest ocean on Earth.
3. The Earth is approximately _____% water and _____% land.
4. A _____ is a large, continuous area of land.
5. _____ are natural events like earthquakes, tsunamis, and hurricanes that can cause widespread damage.

Short Answer Questions

1. Explain the difference between a continent and an island.

2. Describe the distribution of water and land on Earth.

3. Name the five oceans of the world.

4. How do natural disasters affect life on islands and coastal areas?

5. What is the significance of oceans in supporting life on Earth?

Match the following terms with their correct definitions

1. Continent	A landform completely surrounded by water
2. Ocean	A large, continuous area of land.
3. Island	A large body of saltwater covering much of the Earth's surface.
4. Archipelago	A large sea wave caused by an underwater earthquake or volcanic eruption.
5. Tsunami	A group of islands.
